## PopUp

Individual Panel Sizes  
(Width x Height)

End Panel  
673mm x 2230mm

Inside Curve Panel  
673mm x 2230mm

Straight Panel  
733mm x 2230mm

A stand is described by the number of frame squares wide (panels) x the number of frame squares high. Standard panel height of 2230mm increases to 2963mm for a 4-squares high frame, 3696mm for 5-squares high, and 4429mm for 6-squares high. Additional stabilising is recommended for increased heights, using either weights or our unique Frame Support Brace.

When designing for end panels, consider they wrap to the back of the frame. Up to 60% of the width of an end panel may not be visible from directly in front of the stand and designers should remember that.
